DRO shipments are to be sent to R9. To my knowledge R9 has received no samples. We are checking with them today to see if they received the shipment that was sent out yesterday.

Regarding the DRO: our sample control folks tell me we ship DROs ever day. Is there a specific shipment you are asking about?

Rich,

We received 3 coolers and R2 just confirmed that the courier delivered their samples. The 3 coolers contained the VOCs from 1/23 and 1/24 sampling. The other 2 coolers contained the samples for the other R3 parameters from 1/24 sampling.

I need to confirm that a cooler went to R9 with the DRO samples and what exactly was shipped to them. We won't know that they received the cooler until later this afternoon.

Stevie has been in contact with Cheryl/ERT. Stevie will need to know if there is any sampling today and/or if anything will be shipped today since arrangements need to be made at the other labs. R2, R3, and R9 will accept Saturday deliveries. NAREL will not accept Saturday deliver.

If you have any time before 3 today to talk that would be great.

Take care,
Cindy
